

## Cancer Fighting Strategies

We will group the supplements according to their **energetic testing results**. Following the logic that the higher potency supplements, with the higher numbers, are more powerful cancer fighters. And the more of these you use the better. These suggestions have more value than many expensive supplements being used to fight cancer. For starters, stop eating processed, refined, sugarized foods. Eat simple. Whole grains, lots of vegetables. Cut down on animal protein -- though a little is okay. Try to make at least any animal protein organic. All organic is best of course. Cut out **all** sugars, cookies, chips, etc. unless you are on BLA. Now of course, you may not want to change your habits. In that case make sure you are using BLA as the more you feed the cancer cells, the more lactic acid they produce and the faster they will die.

Do a modification of the Budwig **flax seed protocol**. Grind or blend up organic flax seeds fresh every day as they are much less expensive than flax oil. To get Omega 6 EFA's ground up raw organic sesame seeds too. Use at least 3 tablespoons ground up flax seed and 5 tablespoons sesame seed. If using oils instead, make those teaspoons instead of tablespoons. Blend in with cottage cheese to enhance absorption. **Berries** are good to use as they are not as sweet as other fruits. This combination tests at **300**.

Get the **Vitamin D3 Plus** with a **970** rating when using 25 drops a day, 50,000 units. You would need a bit over a bottle a month. You can use this much for about 3 months. Follow the basic tenants of the **Gerson Diet** focusing on lots of raw juices, a vegan diet, and organic coffee enemas. Tests stronger than most usual supplements and treatments, at **800**.

Something the person with cancer should do is the **Louise Hay healing affirmation for cancer**. People have beat cancer using this affirmation.

**"I lovingly forgive and release all of the past. I choose to fill my world with joy. I love and approve of myself."**

Say this affirmation 10 times a day, in one session is fine. Energetic testing puts this affirmation, at **310**.

Another affirmation Dr. Whittaker recommends all his patients use is the classic,

**"Every day in every way, I am getting better and better."**

He gets a lot of positive feedback from his patients on the benefits of this affirmation. You don't have to believe an affirmation to get benefit from saying it. Say either, or both of these affirmations 10 times a day and you will have benefit.

If you are on a limited budget, but can afford to get a few supplements, the most important one to take for an early stage cancer, stages 0 to 3 -- if you can do only one thing -- is: **PrugX** - 2 to 3 bottles per month. For a low budget advanced stage cancer strategy, increase **PrugX** to 4 bottles per month -- and add on 4 bottles a month of its sister elixir, **BLA**. Using them will cause both hydrogen peroxide and lactic acid to build up in cancer cells, making them sick and dying even faster. More is better of course, but these are the two best ones to focus on for almost every cancer. (Not leukemia or very slow growing cancers.)

**PrugX, BLA and MC<sup>2</sup>** is the top rated cancer fighting combination -- testing at **41,500** when you also consume additional honey or other sweets, and **35,400** when you stay on the traditional "no sweets" cancer fighting diet. These cause the cancer cells to die a natural death, so will also be the most important supplements to use in the Avoid Swelling recommendations.

**PrugX** tests as the strongest single cancer fighter, coming in at **16,300**. Use 3, 4 or 6 bottles a month. **Anti-oxidants section. \$69.95**

**BLA** tests at **14,400**. Use 3, 4 or 6 bottles a month of this 2 ounce dropper bottle. It is designed to block lactic acid elimination from cancer cells so the cells die a natural death. **PH Levels section. \$79.95**

**MC<sup>2</sup>** tests at **12,800**. Use 2 bottle a month of this elixir. It micro clusters the fluids in your body. In addition, it causes cancer cells to die a natural death because of its low hertz levels. MC<sup>2</sup> works synergistically with PrugX and BLA. **PH Levels section. \$69.95**

**Corvix** is now potentized with many new powerful healing energies using a new and unique laser energizing technology and tests at **12,400**. 1, 2 or 3 bottles a month. Gets the immune system to better fight cancer and kills cancer cells directly. **Immune System section. \$129.95**

**Ronuv** tests at **12,200** on its own and is generally, because of its unique action, the number 4 supplement to use. A combination of many different elixirs mixed into low deuterium water, supercharged with additional energies in a unique subtle energy transmitting laser technology, give Ronuv a targeted oxygenation capability that focuses on cancer cells and viruses. When **OxyDHQ** and **Custom Elixir Oxy** are also used in conjunction with **Ronuv**, this combination tests at **17,800** in healing power for fighting cancer when used in the appropriate quantities. Use 3, 4 or 5 bottles of each one. **Oxygenation section**

**Zormus** comes in at **14,200** for killing cancer cells. Also is anti-inflammatory. Use 3, 4 or 6 one ounce spray bottles monthly. **Cancer Killers**

**Zaomor and Corvix** is the second strongest cancer fighting combo as they also work synergistically together. They test at **27,300** when used in the suggested quantities.

**Zaomor** tests at **14,100**. It supplies essential oils and divine energies that boost the immune system and kill cancer cells. Use 3, 4 or 6 bottles monthly. **Immune System section**

**StressDefense** is also being supercharged with the QVF technology. It comes in at **9400**. Use 1, 2 or 3 bottles per month. Because of its broad range of nutrient support to the body, it is the most important immune system booster to use for cancer prevention. **Immune System. \$69.95**

If you are using just one or two supplements, and the **prostate cancer** is going away, then you are taking the right amount. If it is reproducing faster than it is being killed, and is growing, you need to increase the number of supplements you are using, or their dosage. So it is certainly possible to start out with just one or two of whatever supplement you want to use, no matter if they are in the second or third group in the protocols. Just be sure to hit the cancer harder if it is not getting better in a few months.

After each supplement in the protocol is a letter indicating how important it is.

1. V = Vital (crucial must do's -- the most valuable supplements to use)
2. I = Important (add on if at all possible)
3. VG = Very good to add on

Expect most, if not all, of the cancer to be gone in **three to five months** if using all the supplements listed as **Vital**.

If you add on all the supplements listed as **Important**, expect most, if not all, of the cancer to be gone in **two to four months**. There will be up to a **20% greater likelihood of success** for very advanced cancers where health is compromised and there is a danger of dying -- as more needs to be done. And it may take a longer time to beat the cancer in this case. If you have an early stage cancer, or are still in good shape without serious complications with an advanced stage 4 cancers, the likelihood of beating the cancer with just the Vital supplements is already very high.

If the supplements listed as **Very Good** are also used, the likelihood of success, if you have a very **advanced cancer**, increases -- maybe as much as **15%** as you are supporting the body even more fully.

### **Prostate Cancer -- Early Stages 1 to 3**

2 to 3 bottles a month **PrugX** V  
2 to 3 bottles a month **BLA** V  
2 bottles a month **MC<sup>2</sup>** V  
1 bottle a month **Corvix** I  
2 bottles a month **Fulvitea**

### **Prostate Cancer -- Advanced to Very Advanced Stages when swelling of the tumor is not a concern**

4 to 6 bottles a month **PrugX** V  
4 to 6 bottles a month **BLA** V  
3 bottles a month **MC<sup>2</sup>** V  
4 to 6 bottles a month **Zormus** V  
4 to 6 bottles a month **Zaomor** V  
2 to 3 bottles a month **Corvix** I  
4 to 6 bottles a month **Ronuv** I  
4 bottles **Quzu** I  
6 to 9 bottles a month **Zeolite Enhanced w/DHQ** I  
6 to 8 bottles a month **Quantum X** I  
4 to 5 bottles **OxyDHQ** I  
2 bottles a month **Custom Elixir DHT** I

If the cancer has spread to any of the detoxification organs, you need additional supplements to support them, whether they are the liver, kidneys, colon or lymph system.

For the liver, add on **UltraLiver12**, 3 bottles for 1 month's supply. If you are trying to avoid swelling or pain, use **Nymsar** and / or **Liver Balance Plus** instead, 3 to 4 bottles a month since **UltraLiver12** will also kill cancer cells.

For the kidneys, add on **Kidney Rescue**, 3 bottles for 1 month's supply.

For the lymph system, add on **Custom Elixir LS**, 2 bottles for 1 month's supply.

For the colon, add on **GI Pro**, 1 bottle per month.

### **What To Do To Save Someone With Very Advanced End Stage Cancer**

When someone's body is breaking down, with significant problems, they are in a process that is leading to death, and are said to be in an end stage of their cancer. This is not necessarily the end. Many people will still be able to reverse this process if they take the right actions.

That action must be significant, and the sooner it can be started the better. Listed in order of importance, here are the best actions to take. The more that can be done, the better.

**PrugX and BLA** are still important to use -- but in a lower dose so that you aren't killing the cancer too fast. The more cancer you kill, the harder your liver will have to work -- and it is already poorly functioning and overworked when someone is in the end stages of cancer. Using PrugX and BLA in the 3 bottle a month dosage will be enough to stop most cancer cells from releasing hydrogen peroxide and lactic acid into your body. Stopping this release will take a toxic load off your body while still causing some cancer cells to get sick and die.

**Endocar** is a frequency enhanced water elixir delivering energies to the body that are designed to support someone with very advanced end stage cancer, fighting death. The energies in Endocar support the detoxification organs, increase nutrient absorption, and help stop catabolic wasting by stimulating liver regeneration, fight infections, increase cellular life force energy and more. Endocar works on issues that often are the actual cause of death in end stage cancers. Use 4 bottles a month.

**Ronuv and OxyDHQ** are next in importance. Like PrugX and BLA, use these at a reduced amount so that not too many cancer cells are killed. Use 2 bottles of each per month. At this level, this is the best infection fighting duo we know of. Ronuv is especially powerful at targeting pathogens, and OxyDHQ helps it work even better. As infections are a major cause of death in very advanced cancers, this infection fighting ability is important.

In addition Ronuv and OxyDHQ are flooding the body with additional cellular oxygen -- vital for preventing cells from turning cancerous and helping poorly functioning cells to work better. They will also help detoxify the body by oxidizing toxins.

**MC<sup>2</sup>** also helps support the body. It micro clusters fluid in the body which enables more toxins to be eliminated from cells, and more nutrients to enter cells. Its ability to enhance nutrient absorption is what makes it so important to use when dealing with end stage cancer. Use 3 bottles a month. Of course, it will also be fighting cancer too.

**Fulvitea** supplies predigested protein peptides and contains other regenerative ingredients that support healing. One of the common characteristics of a body in distress is that the energy required to recover is no longer available. Fulvitea provides energy without taxing your system - making it the perfect choice for recuperation. It's an all-natural essential protein food supplement that is fully absorbable. Typically your body will use the protein peptides in Fulvitea to repair the liver as the liver is the most important organ to fix. Especially for catabolic wasting. In catabolic wasting, the liver is not functioning properly and cannot make protein. The body will use the predigested protein peptides in Fulvitea to repair liver function. **\$109.95**

## HOW 2 USE PRODUCTS

PrugX, BLA and M C 2 are becoming some of our biggest sellers for fighting cancer. The energies in PrugX tell non-functional cells to stop releasing hydrogen peroxide. They produce and release hydrogen peroxide continuously. By stopping this release, PrugX causes this hydrogen peroxide to build up in these cells. Along with the lactic acid building up in these cells with the use of BLA, the additional hydrogen peroxide buildup will cause these non-functional cells to more rapidly become sick and die.

M C 2 works to micro-cluster the water in your body so that it can better carry nutrients into your cells and carry toxins out of your cells. Equally important, it tests as having a hertz reading of 46, which disrupts and causes all non-self cells and pathogens to die a natural death -- while at the same time supporting the health of all normal cells and friendly bacteria. The options 3, 3, 2 or 4, 4, 2 or 6, 6, 3 represent the number of bottles of PrugX, BLA and M C 2 in this combo, depending on the option you choose. Ingredients: Frequency Enhanced Purified Water

Take PrugX, BLA and M C 2 together, at least 20 minutes or more away from food, drink. Can be taken at the same time as other frequency-enhanced, custom elixirs. Hold the combined dosages or all these elixirs in your mouth one minute before swallowing. **One squeeze on the dropper bulb fills the glass tube part way.** When taking several squeezes or more of an elixir, or taking a number of these frequency enhanced elixirs together, it is most convenient to squeeze them all into a small glass and then drink the mixture. **Do not take OCMP, MSM, any Cesium Chloride treatments, Alkaline Water, calcium supplements or Baking soda while using BLA,** as these will neutralize the effects of the lactic acid buildup in the cancer cells or work to help cancer cells eliminate their lactic acid. However, it is fine to use ph Balancer 8.0, OxyDHQ, Oxy-e and Custom Elixir pH while using BLA, as these products do not neutralize or eliminate the lactic acid.

#### **For each product:**

Using 1 bottle per month: Take 1 squeeze plus 6 drops in the morning and 1 squeeze in the evening.

Using 2 bottles per month: Take 3 squeezes in the morning and 2 squeezes in the evening.

Using 3 bottles per month: Take 4 squeezes in the morning and 3 squeezes plus 6 drops (half a squeeze) in the evening.

Using 4 bottles per month: Take 5 squeezes in the morning and 5 squeezes in the evening.

Using 6 bottles per month: Take 8 squeezes in the morning and 7 squeezes in the evening

Using 8 bottles per month: Take 10 squeezes, twice per day.

You can use honey and other sweeteners to speed up the action of BLA. You do not need to use as much as would be ideal if you were using BLA only. When taking BLA along with PrugX and M C 2, 5 tablespoons of honey a day is enough to speed up the action of BLA. Don't use any if you don't want to.

### **ELIMINATING THE HERPES VIRUS (EPSTEIN BARR VIRUS)**

There are two products we suggest for eliminating the herpes virus. It should take 1 to 3 months to do so using them. They are: **Ronuv**; is a low deuterium water, (Hydrogen has three isotopes. Deuterium is one of the isotopes of hydrogen) reduced to 25 parts per million of deuterium, that has been frequency enhanced with numerous subtle vibrational energies to supercharge its benefits. When used in small amounts, Ronuv stimulates the release of deuterium by the cells in your body. Cells that are not producing most of their energy aerobically will have accumulated more deuterium and release more deuterium. The deuterium interacts with water molecules and creates oxygen at the surface of the cells. Viruses and other pathogens may also be attracted to Ronuv low deuterium water, and would be damaged by the oxygen that is created by the deuterium that is also attracted to it. **1 bottle monthly of Ronuv / \$59.95** **Ingredients:** Frequency enhanced low deuterium water 25 ppm. Potentized with a proprietary blend of the following elixirs: Azovin, Corvix, Cosmic Elixir, Custom Elixir OXY, Custom Elixir pH, Custom Elixir VPM, InLightEner Elixir, Klivina Trem, Q DNA, Q ENC, Q ISC, Q RME, Quantum X, Quanzor, Rainbow Elixir, Siva Elixir, Surozyme, and Zernix.

The combination of **Omni Essential Oil Elixir** greatly boosting immune system response, and **Ronuv** directing that response to deal with the herpes viruses is a powerful one two punch for knocking out the herpes virus for good. Omni Essential Oil Elixir / **\$99.95 - \$119.95**

**GetHealthyAgain** is an excellent online store specializing in effective immune support supplements. It carries these supplements, and more. They can answer questions you may have about the supplements, and can help you figure out how to use whatever products you get in combination. Call: **800-832-9755** or **907-235-5556** / <http://www.gethealthyagain.com/> **40374 Waterman Rd, Homer, AK 99603**

Herpes:  $\$479.70 \times 2 = \$959.40$

Cancer:  $\$679.95 \times 3 = \$2039.85$

**Cancer Fighting Single Oils:**

**Helichrysum, lemon, orange, tangerine, ledum, sandalwood, lavender, clove, thyme, Idaho balsam fir, tsuga, frankincense, myrtle**

**Cancer Fighting Blends:**

**ImmuPower, Longevity**

**Cancer Fighting Dietary Supplementation:**

**ImmuPro, VitaGreen, Super C Chewable, ImmuneTune, Essential Manna, Power Meal, Thyromin, Exodus, Sulfurzyme, Mineral Essence, Essential Omegas, Rehemogen, Berry Young Juice, Royaldophilus.**
